This amendment is in response to the amendment under 37 CFR 1.312 requesting that the relationship of the parent application 08/900,174 be changed from a continuation-in-part to a continuation. However, it is noted that on October 7, 2000, Applicant amended the specification to state the 08/900,174 was "continuation-in-part" parent of the present application so the Examiner merely rewrote this language into the continuing data. Upon review of the original transmittal, however, the Examiner notes that the present application was a copy of the parent application and was intended to be a continuation thereof. Therefore, the Examiner has changed the continuing data below and withdrawn the request to the have the declaration corrected.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the specification, the continuing data was deleted entirely and replaced with the following:

---The present application is a continuation of application Serial No. 08/900,174 filed July 25, 1997 and entitled ROTATING, LOCKING, INTERVERTEBRAL DISK STABILIZER AND APPLICATOR, now issued as Patent No. 5,893,890. The below text replaces the pre-printed text under the heading, "Information on How to Effect Drawing Changes," on the back of the PTO-948 (Rev. 03/01, or earlier) form.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

1. Correction of Informalities -- 37 CFR 1.85

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the Notice of Allowability. Extensions of time may NOT be obtained under the provisions of 37 CFR 1 136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.

All changes to the drawings, other than informalities noted by the Draftsperson. MUST be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings MUST be approved by the examiner before the application will be allowed. No changes will be permitted to be made, other than correction of informalities, unless the examiner has approved the proposed changes.
